This book contains 25 new and original minor blues guitar licks. There are 5 licks for each of the 5 blues scale shapes shown below.

Each lick has a corresponding audio example which is available for free download (no strings attached!) from <http://www.fundamental-changes.com> just click on the 'downloads' link. Also included are 3, high quality backing tracks at different speeds to get you playing as soon as possible.

Also in this book there is a great section on how to practice these lines so they naturally incorporate into your playing.

This book came out of a need to develop great blues playing in many of my 40+ weekly private guitar students. Every line in this book has been tried and tested on private students who pay many multiples of the cost of this book. It's all 'good stuff' and every line contained in these pages will teach you something about a different area of the guitar neck whilst teaching you some great lines to play.

Whether you play rock, jazz, or metal, blues is the root of all modern music so a fundamental understanding of its vocabulary is essential.

Thomas White:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just small students that has reading's heart or real their pastime. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this 25 Blues Scale Licks for Blues Guitar can make you experience more interested to read.
