Race & Economics: How Much Can Be Blamed on Discrimination? (Hoover Institution Press Publication) Walter E. Williams

Walter E. Williams applies an economic analysis to the problems black Americans have faced in the past and still face in the present to show that that free-market resource allocation, as opposed to political allocation, is in the best interests of minorities. He debunks many common labor market myths and reveals how excessive government regulation and the minimum-wage law have imposed incalculable harm on the most disadvantaged members of our society.
