To Kill A Country Pamela J. Ray

To Kill A Country looks behind the scenes at some of the most shocking and horrific things that have happened (and are still happening) here in America starting with the daytime assassination of President John F. Kennedy and the implications it serves up to the citizens of a "free" nation. The author, along with James Files, former CIA/Mob hit man, assassin, headshot from grassy knoll shooter, explore the truths behind some basic questions still lingering decades after the JFK assassination. Why was President Kennedy killed? Who benefited? Who had the power to cover it up? Not wanting to stay focused on that horrible event in our nation's history and have this be just another JFK book, Files and Ray move on to open Pandora's Box and discuss not-so-nice things the CIA has done in other countries as well as here in the good ol' USA. They wrap it up with a shocking enigmatic-mystery and treasure hunt in the CONSPIRACY for the New World Order section in Part III. Hold on to your seats for a wild ride on the journey where most angels would fear to tread.
