MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit www.MySearchLab.com and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself—including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography.

Edited by one of the most renowned scholars in the field, Richard Betts' *Conflict After the Cold War* assembles classic and contemporary readings that argue about the shape of international conflict in this post-Cold War and post-9/11 era. Contextualized within a broader philosophical and historical context, the carefully chosen and excerpted selections in this popular reader introduce students to the core debates about the causes and the future of war and peace. Through the precision of its approach and attention to new issues, this reader challenges conventional wisdom and encourages more critical examination of the political, economic, social, and military factors that underlie political violence.
