Macroshift: Navigating the Transformation to a Sustainable World Ervin Laszlo

A "macroshift" is a transformation of practically all aspects of life, from individual lifestyles to the global economy. Expert Ervin Laszlo argues that the macroshift now upon the planet is unprecedented in scope, and, reverberating as it does at every level, warrants serious attention. This book describes the dynamics of today's macroshift, cautioning that the values and behaviors associated with it have the power to either break through or break down world order. Readers learn about the essential dangers and opportunities they face and how they can begin to make informed, responsible choices.
