Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS Richard C. Zink
Improve efficiency while reducing costs in clinical trials with centralized monitoring techniques using JMP and SAS.

International guidelines recommend that clinical trial data should be actively reviewed or monitored; the well-being of trial participants and the validity and integrity of the final analysis results are at stake. Traditional interpretation of this guidance for pharmaceutical trials has led to extensive on-site monitoring, including 100% source data verification. On-site review is time consuming, expensive (estimated at up to a third of the cost of a clinical trial), prone to error, and limited in its ability to provide insight for data trends across time, patients, and clinical sites. In contrast, risk-based monitoring (RBM) makes use of central computerized review of clinical trial data and site metrics to determine if and when clinical sites should receive more extensive quality review or intervention.

Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS presents a practical implementation of methodologies within JMP Clinical for the centralized monitoring of clinical trials. Focused on intermediate users, this book describes analyses for RBM that incorporate and extend the recommendations of TransCelerate Biopharm Inc., methods to detect potential patient-or investigator misconduct, snapshot comparisons to more easily identify new or modified data, and other novel visual and analytical techniques to enhance safety and quality reviews. Further discussion highlights recent regulatory guidance documents on risk-based approaches, addresses the requirements for CDISC data, and describes methods to supplement analyses with data captured external to the study database.

Given the interactive, dynamic, and graphical nature of JMP Clinical, any individual from the clinical trial team - including clinicians, statisticians, data managers, programmers, regulatory associates, and monitors - can make use of this book and the numerous examples contained within to streamline, accelerate, and enrich their reviews of clinical trial data.

The analytical methods described in *Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS* enable the clinical trial team to take a proactive approach to data quality and safety to streamline clinical development activities and address shortcomings while the study is ongoing.

This book is part of the SAS Press Program.

From reader reviews:

Alfredo Dunn:

As people who live in the actual modest era should be revise about what going on or information even knowledge to make all of them keep up with the era that is certainly always change and advance. Some of you maybe will certainly update themselves by reading through books. It is a good choice for yourself but the problems coming to a person is you don't know which one you should start with. This Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS is our recommendation to make you keep up with the world. Why, as this book serves what you want and wish in this era.

Christina Pena:

Your reading 6th sense will not betray a person, why because this Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS reserve written by well-known writer who knows well how to make book which might be understand by anyone who else read the book. Written in good manner for you, leaking every ideas and producing skill only for eliminate your current hunger then you still doubt Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS as good book not simply by the cover but also through the content. This is one e-book that can break don't determine book by its deal with, so do you still needing one more sixth sense to pick this specific!?! Oh come on your studying sixth sense already told you so why you have to listening to an additional sixth sense.

James Sirois:

Beside this Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS in your phone, it might give you a way to get nearer to the new knowledge or details. The information and the knowledge you are going to got here is fresh in the oven so don't be worry if you feel like an old people live in narrow commune. It is good thing to have Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS because this book offers for you readable information. Do you often have book but you would not get what it's about. Oh come on, that won't happen if you have this in your hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. Use you still want to miss the idea? Find this book and read it from now!

Elizabeth Sherer:

Reserve is one of source of information. We can add our expertise from it. Not only for students but in addition native or citizen want book to know the up-date information of year to year. As we know those books have many advantages. Beside many of us add our knowledge, may also bring us to around the world. By book Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS we can acquire more advantage. Don't you to definitely be creative people? Being creative person must choose to read a book. Just choose the best book that ideal with your aim. Don't possibly be doubt to change your life with that book Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS. You can more

pleasing than now.
