No one stood so tall, spiritually speaking, as Dr. Martin Luther of Germany. He lived a life totally dedicated to God and yet his theology left much to be desired. It must be remembered that he was coming out of the Dark Ages, and though he was trained biblically in the Catholic Church, he was repudiating that theology. He attempted to develop a belief firmly grounded in the Bible, and yet at the end, he would still have doctrinal limitations. One of his great faults was his hatred of the Jewish people because they did not accept Christ as their Savior. Nevertheless, we have much to give thanks for when we think of Martin Luther!

Luther was learning as he went. And when he died, he had already inspired thousands to accept the Bible as the ultimate and final guide of Christianity. On April 13, 1521 he risked his life when he stood before the Diet of Worms and defended the Word of God over the repressive views and control of the Catholic Church. What he said, and later what he did, helped spark the founding of America. But others also had great influence, such as John Calvin, William Tyndale, and John Knox. Many church historians say these men were the founders of America!

Tyndale made this profound statement that can be traced all the way across the ocean and lodged on the American shores. He said “I have perceived by experience how that it is impossible to establish the lay-people in any truth, except the Scriptures when it is plainly laid before their eyes in their mother tongue, that they might see the process, order and meaning of the Bible text!” It would be proven that by this statement, the English Bible, and Tyndale’s translation of it, would play a role in uniting the American people around the truth of the Word of God. The American people would have its manual—the Scriptures that would guide the nation and unify it as no other country would experience! This book will to a degree tell that amazing story!

This book is also about the ideal of the Pilgrims and the Puritans who wished to establish a free church. And that church, even though it would be divided to a large degree by denominations, would influence the government of the new nation, though at first they attempted to establish a theocracy, and they struggled to know God’s will for their society. Through them, the seeds of democracy were established and securely planted in fertile soil. The Puritans of New England first learned the principles of democracy in their church life, then in town meetings, and finally in the larger affairs of state and nation.

Again, the question: Was America founded as a Christian nation? From the nation’s history this book will lay out for us the answer!
