**Asking the Right Questions: A Guide to Critical Thinking (8th Edition)** M. Neil Browne, Stuart M. Keeley

The habits and attitudes associated with critical thinking are transferable to consumer, medical, legal, and general ethical choices. When our surgeon says surgery is needed, it can be life sustaining to seek answers to the critical questions encouraged in Asking the Right Questions This popular book helps bridge the gap between simply memorizing or blindly accepting information, and the greater challenge of critical analysing the things we are told and read. It gives strategies for responding to alternative points of view and will help readers develop a solid foundation for making personal choices about what to accept and what to reject.
