The story of the caterpillar and the butterfly has been told many times but a recurring theme has been about the clumsy caterpillar metamorphosing into a beautiful butterfly. The story is about struggle and ignominy eventually culminating in glory and success.

This story offers a slightly different take and attempts to convey to a child that every phase of life has its share of joys and should be enjoyed to the hilt. Life is about living in the present and making sure that you don't lose sight of the present in your quest for the future. Most children are often in a hurry to grow up as they believe that adulthood is synonymous with independence and happiness. Yet when they grow up they still look back at their childhood as their wonder years. If only they had understand the virtues of childhood when they were children they would have enjoyed it more.

This theme is brought alive through the story of Twisty, a caterpillar who lives her life in agony and regret that she cannot fly and travel the world like her mother. She gets a dose of reality when she gets to visualize the life of a butterfly, albeit in her dreams. It brings home the lesson that a adult life is not as rosy as it looks and that a child should try and enjoy the fun and carefree days of her childhood.
