The Journey of the Magi: The Truth about the "Three Kings" and the Historical Jesus Hans Holzer Who were the Three Kings and why were they traveling together? What was the "star" they followed? Where were they coming from? As a student of archeology and ancient history, with a Master's Degree in comparative religion besides a Ph.D., Hans Holzer is just the person to answer these questions. He also called on the exacting scholarship of the University of Chicago and The Interlinear Translation of the New Testament and his knowledge of ancient numismatics, especially pertaining to the coins of the first century A.D. issued in Kabul and Petra. Pinpointing the real date of the birth of Jesus, Holzer concludes that the experience of the shepherds and of the Three Kings was separated by an interval of two years. He became convinced that the Journey of the Kings took a long time and that they came a long way. The Journey of the Magi takes you along on his quest to uncover and understand the evidence that reveals the journey of the Three Kings and the journey of humankind to follow the Light that will lead them out of darkness.
