No organization has ever become great without exceptional leadership - without leaders who can connect the efforts of their teams to the critical objectives of the organization, who can tap the full potential of each individual on their team? It takes a leadership mind-set, skill-set, and tool-set. This audio is the synthesis of Dr. Stephen R. Covey's two-day interactive and intensive workshop on leadership. The proven principles of the 7 Habits are applied to leadership roles as Covey teaches managers and other leaders how to define their contributions, develop greater influence, leverage hidden resources, give constructive feedback, and unleash the full potential of their team against critical priorities. The 7 Habits approach helps developing leaders unleash the talents and capability of their team against the organization's highest priorities.
