Hey, you!

I am so glad you're here, because it gives me an opportunity to do something I really love: Helping men meet more women.

And not just meeting them, but how to keep them coming back for more. Books the size of dictionaries have been written about this very thing, but what I'm offering is basically a crash course. These are the MOST important things, concentrated with no filler.

Think of it as one of those little translation books you keep in your back pocket. Whenever you get to thinking, "How should I dress? What's the best way to touch her?" you can pull this baby out and think to yourself, "Of course!" A little refresher into the world of what women want.

You know, I don't think there's a question girls get from guys more often than that. "What do you girls want? What are they even looking for?" I know I've heard it at least a hundred times, usually from guys who seem frustrated or just confused. They've just gone through a breakup they didn't see coming, like she just woke up and decided she was bored of him or something.

And, well, we do get bored sometimes... but you just have to know by now that we're a little more complicated than that .

Don't worry, I'm not leaving you out to dry on this one. I can't tell you what every girl wants in the whole world, because we're all different, but what I can do is put you on the right path. There's a bunch of universals that we're all at least kind of into, and knowing what those are will get you more women than ever... and keep them coming back for more.

Well, they'd probably work on me, anyway ;)

See, most guys think getting women is as easy as knowing the right pick-up line to use, or knowing what drink to order her. I'm not going to lie, there is something about knowing exactly what to say. Smooth operators are a major turn on for most of us. But there's so much more to it than that.

I'm going to tell you what to say, how to dress, how to treat us and everything else you need to know so you can get more women than you'll even know what to do with, and how to drive them absolutely crazy!
