About the Book Teaching Piano in Groups is a one-stop compendium of information related to all aspects of group piano teaching. Motivated by an ever-growing interest in this instructional method and its widespread mandatory inclusion in piano pedagogy curricula, Christopher Fisher highlights the proven viability and success of group piano teaching, and arms piano teachers with the necessary tools for practical implementation of a system of instruction in their own teaching. Contained within are: a concise history of group piano teaching; accessible overviews of the most important theories and philosophies of group psychology and instruction; a comprehensive discussion of cooperative learning theory and its application to group piano teaching; suggested group piano curricular competencies; practical instructional strategies; and thorough recommendations for curricular materials, technologies, and equipment. Teaching Piano in Groups also addresses specific considerations for pre-college teaching scenarios, adult recreational piano classes, and college-level group piano programs for music majors. Teaching Piano in Groups is accompanied by an extensive companion website, featuring a multi-format listing of resources as well as interviews with several leading group piano pedagogues.
